DETAILED ACTION

Allowable Subject Matter

Claims 1-11, 13, 14, 16-33 are allowed.

The following is an examiner's statement of reasons for allowance: the amendment to the claims filed 22 June 2005 sufficiently alters the scope of the claims as to overcome the rejection of record. The added limitation that further limits intent-based documents as describing "user interaction with the application separate from application content and presentation" is not found in the prior art of record, or in an updated search conducted by the Examiner. The closest prior art of record, US Patent 5,748,146 to Raman, discloses Web HTML documents that represent the content and structure of a document to be displayed, and fails to describe a document entailing user interaction with an application separate from application content and presentation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
